

# INTRUDER ALARM LEGISLATION

**BTEC**  
ADVANCED AWARD

Delivered via our very own bespoke learning platform, this online course is open to all who are involved with the design, installation, ownership, policing and monitoring of electronic intruder alarm systems.

The course will give you the confidence and ability to work safely and legally within the current range of laws and other regulations governing the intruder alarm industry. When doing this course, learners will have the option to choose a non-accredited route at a reduced cost and receive a Tavcom Training certificate upon completion.

## COURSE CONTENT

- ▶ Security risk assessments
- ▶ Insurers' requirements
- ▶ System proposal procedures
- ▶ Requirements for Police response
- ▶ British, European and international standards
- ▶ Gathering necessary information
- ▶ Siting and locating system components
- ▶ Grading of intruder alarms
- ▶ Signalling requirements
- ▶ Confirmation and dual path signalling

*“ Very informative, will be referring back to this course. Well done. ”*
